

RESEARCH APPROACH

5 stakeholder interviews conducted during this simulation (~15 minutes each). Use your interview outputs to complete this brief.

Personas interviewed:

- Aunt Mary Tan — Cashier
- Uncle John DeSouza — Owner / Founder
- Mrs Selva — Loyal Customer
- Jacky — HDB Staff / Bulk Buyer
- Darren DeSouza — Main Barista

Focus areas:

- Pain points and workarounds
- Daily frustrations and blockers
- Aspirations and desired outcomes
- Observations about the business

BUSINESS SNAPSHOT

From your interviews and case brief, fill in the key figures for Tea Fellas.

| Item                    | Figure | Notes / Source |
|-------------------------|--------|----------------|
| Daily customers         |        |                |
| Monthly revenue         |        |                |
| Monthly operating costs |        |                |
| Net monthly surplus     |        |                |

KEY THEMES

Identify up to 4 overarching themes from your interviews. Name each theme and summarise what you consistently heard.

Theme 1 — Name:

What pattern emerged across interviews?

Theme 2 — Name:

What pattern emerged across interviews?

Theme 3 — Name:

What pattern emerged across interviews?

Theme 4 — Name:

What pattern emerged across interviews?

For each persona, record the key pain point, their aspiration, and a memorable quote from your interview.

PAIN POINT SUMMARY

List the pain points identified across your interviews. For each, note the affected area, severity, and how often it occurs.

| # | Pain Point | Area Affected | Severity | Frequency |
|---|------------|---------------|----------|-----------|
| 1 |            |               |          |           |
| 2 |            |               |          |           |
| 3 |            |               |          |           |
| 4 |            |               |          |           |
| 5 |            |               |          |           |
| 6 |            |               |          |           |
| 7 |            |               |          |           |
| 8 |            |               |          |           |
| 9 |            |               |          |           |

EMERGING OPPORTUNITY AREAS

Based on your findings, identify 3 opportunity areas where an intervention would create the most value.

Opportunity Area 1:

What is the opportunity? Who benefits? What might a solution look like?

Opportunity Area 2:

What is the opportunity? Who benefits? What might a solution look like?

Opportunity Area 3:

What is the opportunity? Who benefits? What might a solution look like?

→ NEXT: PHASE 2 — DEFINE

In Phase 2 you will frame the core problem, define the product vision, and identify Business Process Re-engineering opportunities. Use these findings as your evidence base.
