

Solution Name: _____

Recommended Scenario: _____

PRODUCT VISION

Customer & Stakeholder Needs

PROBLEM STATEMENT

Who feels what about which situation? What barrier prevents the goal? What is the impact?

SERVICE OPPORTUNITY & REACH

How many customers does this solution reach? What is the business scale opportunity?

CUSTOMER INSIGHTS & JTBD

What is each user trying to accomplish? (Jobs to be Done — by persona)

Product Value Proposition

PRODUCT OBJECTIVES (OKRS)

What are the 3 high-level objectives? (What does "success" mean for this product?)

VALUE TO USERS

What specific value does this deliver to each key user group (operations, customers, business)?

SUCCESS METRICS (KEY RESULTS)

What measurable outcomes will tell you the objectives have been met? (Quantify where possible)

Execution & Roadmap

PRODUCT ROADMAP

What are the delivery phases? What is built when and at what cost?

LAUNCH STRATEGY

How will you implement? Vendor selection, training, go-live approach, fallback plan?

RESOURCING & MANPOWER PLAN

Group Activity — Fill In

Who does what? What new roles / capacity is needed? Any redeployment?

Risk & Mitigation

TRENDS

What external trends support or threaten this solution? (Technology, market, regulations)

RISK IDENTIFICATION & MITIGATION

List 4-5 key risks. For each: What is the risk? How likely? How bad? What is the mitigation?
